NOTE: With careful installation and proper gasket compression adjustments, new terrace doors with improved access sills will perform dependably as noted. Balcony settling, normal use and wear over time may affect air and water performance of doors fitted with improved access sills.

DISCLAIMER: With properly designed building conditions and correct installation, TD-4250i improved access sill component profiles will meet ADA accessibility criteria per Fair Housing Act Regulations, 24 CFR 100.205 Chapter 4, "Thresholds and Accessibility Routes at Exterior Doors". However, Wausau Window and Wall Systems makes no claim relative to ADA or Fair Housing Act compliance, or lack thereof, applicable to the total terrace door installation, including but not limited to, hardware, approach area, reach, force(s), motion, etc. It is the sole responsibility of the building's Architect or Engineer of Record to verify compliance of the total installation. Wausau takes no responsibility for compliance, or for acceptance by authorities having jurisdiction.
