Wausau Engineers Window Solution for Walt Whitman High School, Huntington Station, N.Y.

Wausau, Wis. – To better serve its 1,500 students, Walt Whitman High School in Huntington Station, N.Y. underwent an extensive renovation in 1997. The South Huntington Union Free School District called upon Wausau Window and Wall Systems® to provide the facility with a high performance window solution.

Working closely with school renovation team Wausau ensured that the new windows matched the building's existing features, preserving the integrity of the original design. Wausau engineered a two-part system including its curtainwall and 2700 Series fixed and operational windows.

Tested to the requirement of AAMA HC-50, these windows offer excellent acoustical and thermal performance, as well as indirect ventilation. Wausau's 2700 Series low-maintenance windows also are easy to clean and operate, making them ideal for schools.

Creating architectural window and curtainwall systems for academic institutions' window retrofits and new construction projects is one of Wausau's specialties. Through a comprehensive, quality process managed by a single point of contact and a team of structural and metals engineers and designers, testers and installing subcontractors, Wausau provides window solutions for some the nation's most prestigious educational campuses.

Nationally recognized for its innovative expertise, Wausau Window and Wall Systems is an industry leader in engineering window and curtainwall systems for commercial and institutional construction applications. For 50 years, Wausau has worked closely with architects, building owners and contractors to realize their vision for aesthetic beauty and lasting value, while striving to maintain the highest level of customer service, communication and overall satisfaction.

Wausau is a part of Apogee Enterprises, Inc., a publicly held, U.S. corporation. For more information on Wausau Window and Wall Systems, please call (877) 678-2983, or visit www.wausauwindow.com.
